

legalities & governance

Draft a safeguarding policy for your social enterprise and tailor it toward the beneficiaries you intend to work with. Remember there are standard templates which can be found online.

Make a list of people who could potentially form a board. You should consider both the contacts you already have and those you have yet to work with who might make a good fit. Try and find a good balance of people with different skills and experiences.

Reflect on what you learned in the video and in the further reading. Which legal model would best fit your social enterprise?
